# the **story**

A medical center in Wisconsin was able to elevate its interiors to help meet the challenging healthcare demands that happen every day in a medical facility. Two areas that needed the most attention in their upgrades were privacy systems and wall protection. However, both solutions needed a sustainability focus. Inpro's Privacy Systems and Door + Wall Protection Divisions were able to assist this facility with an array of products customized for their healthcare needs.

Follow Me- Cream City, EZE  
Swap Snap Panel Privacy  
Curtains in Shield HH fabric  
Formatrac Privacy Curtain track

# the **results**

---

Inpro's sustainable LEED G2 Palladium Sheet was able to help protect the wall of the facility with superior protection from scratches and other common defects seen in busy healthcare settings. Custom Shield-HH curtains were customized with the medical center's chosen designs, and offered an easy-to-care-for, stain resistant and water repellent option that even met Practice Greenhealth - Healthier Hospitals criteria.

## obsessed with protecting buildings®

How they look. How they function.  
And how they protect the health and safety  
of the people who use them every day.

That's why we make hundreds of architectural  
products all under one roof and work tirelessly to  
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't  
have it any other way.
