

Architectural Signage

Color Guide

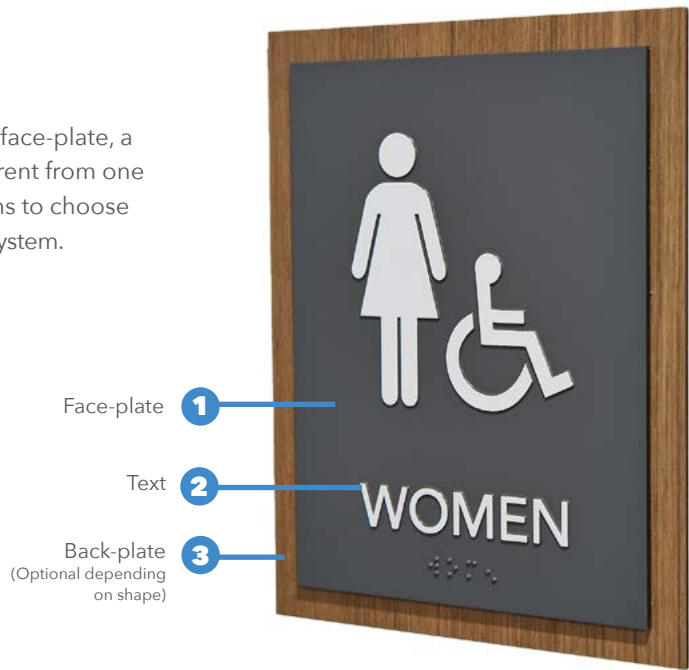

Colors

Architectural Signage is comprised of three basic parts: a face-plate, a back-plate and text. Each one of these parts are very different from one another which means they also have different color options to choose from. Use the following finishes to create your perfect sign system.

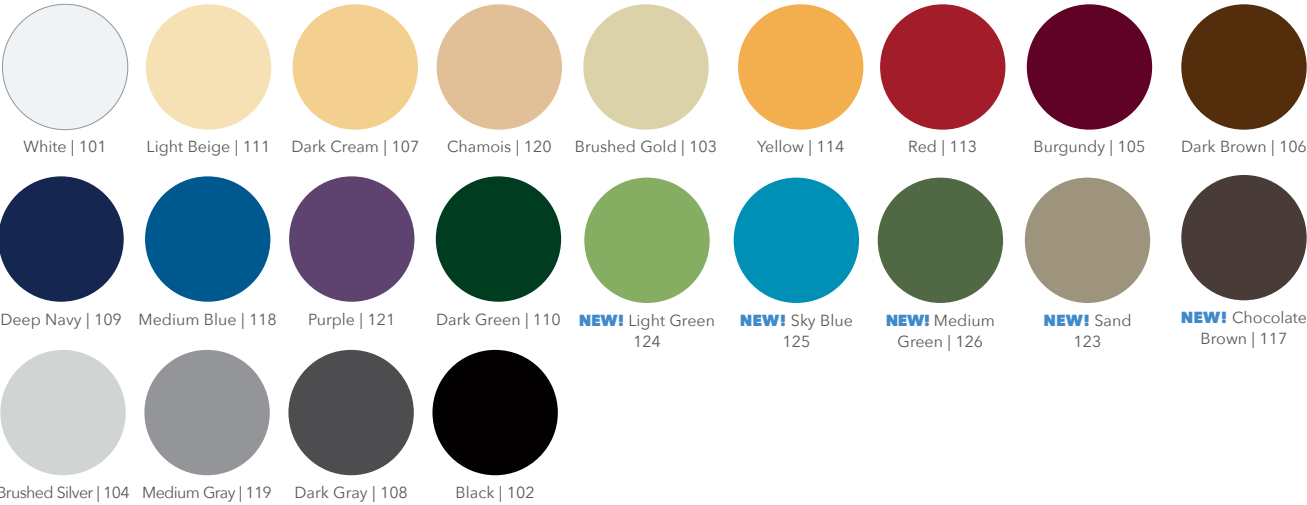

Palladium® Rigid Vinyl: Woodgrains, Patterns, Metallics + Solid Colors

Photopolymer: Standard Solid Colors, Custom Solid Colors (Paint Matched, not shown), Photopolymer ONLY Text Colors/Woodgrains

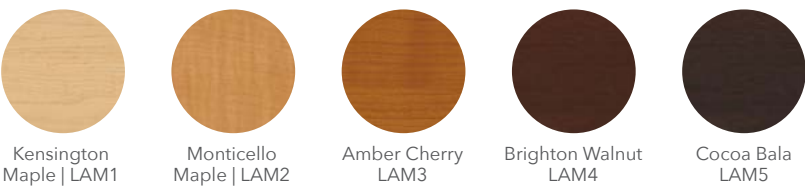

Applied Acrylic: Painted and printed with Standard + Custom Colors

Photopolymer **ONLY** Text Colors

Photopolymer **ONLY** Wood Grains

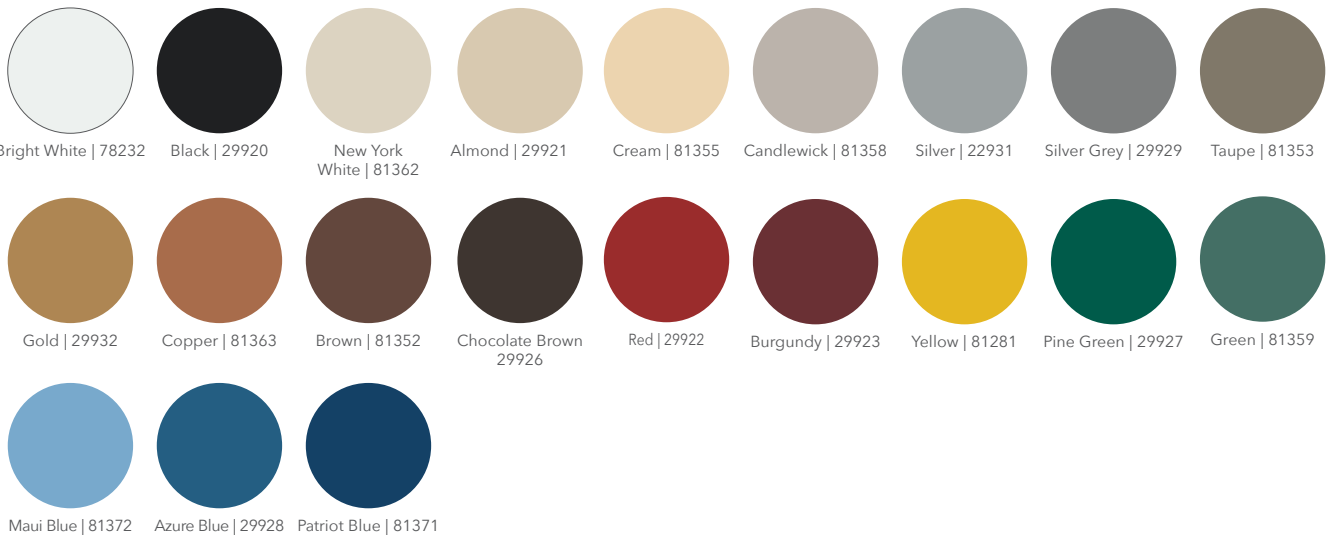

Palladium® Rigid Vinyl
Made to coordinate with our Palladium® Wall Protection.

NEW! Applied Acrylic
Starting with a non-glare clear material. Solid color text is applied to the surface. Options for the face include paint and printed imagery.

Photopolymer
A one piece construction sign. Give it a personal touch with paint, laminates or printed imagery.

Applied Acrylic Text Colors

Patterns

Palladium® Rigid Vinyl Signage - sign face, backplate + text. Photopolymer Signage - backplate only.

obsessed with protecting buildings™

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
